

Pertime view of a step

Building block design

- All blocks in above diagram make up level-1 building block view.
- you can write about why you need
 - Step detector
 - What Enhanced prompt block does
 - ⇒ you can have detailed description on how these are composed and how they look like for each step
- Claude code
- Response
 - ⇒ you can provide reasoning for why two files generated (user review & guide file)
- how step-dore works to move sixstep framework to next step
